# Payments Simplified

## For Microsoft Dynamics 365 Business Central

### A Global Enterprise-Level Solution for Mid-Sized Businesses

With Fortis Payment Processing for Business Central, your company can accelerate payments and give your accounts receivable a boost. Companies can securely accept and process credit card and ACH payments in e-commerce, card present or card not present, and multiple call center scenarios while reducing the risk of fraud and theft. Safeguard your customers and business with industry-leading PCI 4.0 security.

### Advantages

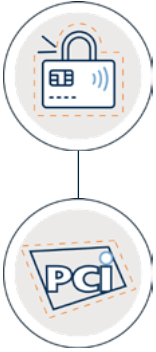

**Streamline your processes. Save time and money.** Our software is designed to be easy to use, save time and maximize your processor relationship. With an interface that makes taking payments a snap, you have lots of choices when processing payments through Business Central.

- **Pay less per transaction** with Level II and Level III interchange and lower your processing costs.
- **Utilize ACH and electronic payments** as an alternative to card payments.
- **Get paid faster** with our customer self-service portal when you combine Fortis Payment Processing for Business Central with our web-based, secure portal Clever Division™.
- **Get going within minutes** with our user-friendly assisted set-up tool.
- **Process payments or capture authorizations** at shipment or invoice, reconcile and settle invoices, and automate accounts receivables.
- **Accept payments** on account in a Payment Journal.
- **Reconcile bank statements** with journals designed to make things easier.

## Reduce Your Risk and Secure Your Data

Our software is designed to protect your data and comply with the strictest standards in the industry. Security is at the forefront of our design and reducing your risk is the result.

- **Reduce your PCI footprint** with industry-leading security that is PCI 4.0 ready and uses profiles and tokens to safeguard customer and business data.
- **Use hosted payment card entry** to take Business Central out of PCI Scope.
- **Allow customers to enter their own card data** through our secure portal.
- **Use Card Verification Data (CVD)** to further secure your transactions.

## Why Fortis

**Fortis has specialized in expanding the capabilities of Microsoft Dynamics 365.**

Globally deployed by 500+ companies, Fortis' solutions offer extensions and additions for Finance & Operations (F&O), Business Central and Customer Engagement (CE) users. Additions such as card present, card not present, ACH, digital wallets, Level II/III processing, surcharging, PCI 4.0 ready, and omnitoken capabilities are a few of the robust features.
